"Witness" – Daughtry

Are you sick and tired
Of being sick and tired
Hollowed out and feeling uninspired
The question I keep asking is
What will it take to ease your
Worried mind, your worried mind
Are you letting your confusion take control
And lead you down a dark and
Lonely road
Even that won't last forever
Just look around and see you're
Not alone, you're not alone

Chorus:

If you ain't found love
But you're still not giving up
(Can I get a witness)
If ya down and out
But you still wanna live it up
(Can I get a witness)
And if the weight of the world
Is on ya now, but you know
You can turn it all around again
Can I get a witness
Can I get a witness

Does it feel

Like you're just wasting time
Here without a reason
Or a rhyme
The answer you've been looking for
Is standing right before your
Weary eyes, your weary eyes

Chorus (x2)

"I'll Fight" - Daughtry

I wanna see you run
Anywhere you want
Never let the darkness hold you
back
No fear of getting lost
I wanna see you fly
Way beyond the sun
Anything you ever gonna dream
I pray that it will come

Chorus:

But if you ever fall down
Straight to the bottom
And you can't get
Back to where you started
Any place, any time
You gotta know for you
I'll fight

Where you wanna go?
I'd love to take you there
Wish that I could make the road
easy
I wish that life was fair
Don't wanna see you cry
Even when it rains
And I hope you don't forget this
You were born for better things

Chorus

With no strength to stand
I'm gonna reach for your
hand
When the going gets rough
Right when it's hurtin'
I will be there to help
Bear the burden
Any time, any place
You gotta know for you I'll
fight
Any place, any time
You gotta know for you
I'll fight

Anywhere you go
You're gonna find me

No matter what you need
Chorus

Any place, any time
You gotta know for you
I'll fight

"The World We Knew" -

Daughtry

Another year goes by
Speeding as I drive
Felt like I would live this life
I knew forever
I didn't see it change
But I know it's not the same
I'd bring it back if I could
But I know I'm not that clever

Life's so short
And it goes by fast
And we can't get it back

The world we knew
It was so simple then
Me and you
Thought it would never end
Oh what I wouldn't do
To get back to
The world we knew

Another year goes
Songs can bring you back
Yeah, I remember that
Nothing wrong the days were
long
And the sun warmer
Life's so short
And it goes by fast
We'll never get it back

I remember nights baby, you
and I
Taking what we were given
And I remember days dancing
in the rain
That's what I call living
Not a worry, not a care
Everything was different, but
We're still here
In the world we knew
It was so simple then
Me and you
It was so simple then

The world we knew (x3)

"18 Years" - Daughtry

Sat down with an old friend
Like time had never stopped
From the cradle to the coffin
We drank until we drop
Yeah, we grew up on the same
street
A small town under the hill, yeah
But dreams get lost and buried
down
Deep inside the soil there, yeah

Refrain

All day all night
Keep pressing rewind
All day all night
I remember
(x1)

Chorus

We were young, we were wild
We were halfway free
We were kids on the run
On a dead-end street
Looking back in the rear view
mirror
You know the view used to be
much clearer
But we'll laugh and we'll cry
Till there's no more tears
And tonight can we just hold on to
those 18 years
18 years

Some ran down the highway
To chase away their ghosts
Some are frozen in the same
place

This time inside their bones
Remember throwing TVs off the
overpass onto the tracks, yeah
But the trains roll on through the
small town and never looked
back, yeah

Refrain (x2)
Chorus

And tonight can we just hold on to
those 18 years
18 years

Yeah, we just hold on (x3)

18
YEARS
